PROFESSIONAL SUMMARY

Java Full Stack Developer with a B.E. in Computer Engineering and hands-on experience building scalable, secure web applications using Spring Boot, Spring Security, and React.js. Proficient in developing RESTful APIs, implementing JWT-based authentication, and designing end-to-end systems with MySQL and JPA/Hibernate. Strong foundation in OOP, MVC Architecture, and Git-based version control, with frontend proficiency in React.js, HTML5, CSS3, and JavaScript. Seeking an entry-level Java Full Stack Developer role to contribute technical expertise and a strong development foundation.

TECHNICAL SKILLS

Languages:	Java (Core, Java 8), JavaScript, SQL
Backend:	Spring Boot, Spring Data JPA, Hibernate, REST APIs, JDBC, Maven
Frontend:	React.js, HTML5, CSS3, JavaScript (ES6+), Bootstrap, Tailwind CSS
Database & Tools:	MySQL, Git, GitHub, Postman, VS Code, Eclipse
Core Concepts:	Data Structures & Algorithms, OOP, Multithreading, MVC Architecture, Layered Architecture
Security & Auth:	JWT Authentication, Spring Security, Secure REST APIs

PROJECTS

HireOrbit - Job Application Tracker | [GitHub](#) | [Live Demo](#) Jan 2026 - Apr 2026

Full Stack | React.js, Spring Boot, Spring Security, JWT, MySQL, REST APIs

- Built a full-stack job application tracker with user-specific data isolation using JWT-based authentication.
- Designed and implemented 15+ RESTful APIs for managing job applications, interview rounds, and user operations.
- Built a real-time dashboard using React Context API for live status tracking of application pipeline.
- Implemented interview-driven status automation and a resume-to-job match analyzer module using Java string processing.
- Secured all endpoints with Spring Security; structured backend using layered architecture (Controller - Service - Repository).

Attendify - Student Attendance Management System | [GitHub](#) | [Live Demo](#) Jan 2026 - Mar 2026

Full Stack | React.js, Spring Boot, Spring Security, JWT, MySQL, REST APIs

- Developed a web-based attendance management system with full CRUD operations for students, subjects, and attendance records.
- Secured API endpoints using Spring Security with JWT authentication, preventing unauthorized access.
- Structured backend using layered MVC architecture for scalability and maintainability.
- Built responsive React.js frontend with real-time attendance marking and reporting views.

SprintBoard - Task Management Dashboard | [GitHub](#) | [Live Demo](#) Mar 2026 - Apr 2026

Frontend | React.js, Tailwind CSS, JavaScript (ES6+), Context API

- Built a responsive task management dashboard with authentication, protected routes, and role-based access control using React.js and Tailwind CSS.
- Implemented task search, filtering, and pagination to streamline task navigation and improve usability.
- Managed global application state using React Context API across multiple reusable components.
- Deployed the application on Vercel with GitHub integration for continuous live access.

EDUCATION

Bachelor of Engineering - Computer Engineering Dec 2021 - Jun 2025

MES Wadia College of Engineering, Pune (Savitribai Phule Pune University) | CGPA: 7.51 / 10

Higher Secondary Certificate (HSC) – Science Jun 2019 - May 2021

R. R. Shinde Junior College, Hadapsar, Pune | Percentage: 87.83%

CERTIFICATIONS

- Full Stack Java Development (Spring Boot + React.js) - Kiran Academy, Pune (2026)
- Java (Basic) - HackerRank (2026)
- Software Engineer - HackerRank (2026)
